Mitch LePage

MANAGING PRINCIPAL, PREDICTIVE SUCCESS CORPORATION

Mitch LePage joined Predictive Success Corporation as a Managing Principal following 31 years in public education. As a lifelong learner, Mitch holds a Master's Degree in Education from the University of Toronto, Executive Supervisory Officer Certification from the Rotman School of Management, University of Toronto and Information Management Certification from the School of Business, Queen's University. Mitch is also a certified PI Analyst.

“Our board has adopted the Predictive Index Behavioural Assessment as a key tool in our Leadership Strategy. Mitch’s ability to support our use of the Predictive Index in identifying an administrator’s strongest behaviors, summarizing the way they see themselves in the role and how they are actually leading, is extremely helpful for the gap/fit analysis that informs their personal growth plan.—Superintendent of Education

I truly value our partnership with Predictive Success both as a tool to inspire self-reflection and also as a means to strategically recruit, develop and support future leaders. Mitch is a “knowledgeable expert” who is always willing to offer constructive suggestions on how we continue to grow and improve as a learning organization.—Mark Fisher, Associate Director of Education

Throughout his distinguished career, Mitch has seized opportunities for growth, development and leadership, serving as a classroom teacher, school administrator and, for his last 12 years in education, as Superintendent of Education. Until his retirement in August 2013, Mitch assumed the role of Acting Director of Education and CEO leading an organization with 21,000 students, 2,600 employees and a budget of \$230 million dollars.

Mitch was responsible for the supervision of area school operations and curriculum delivery, which included the selection, supervision and development of school leaders. Mitch has been regularly sought out to serve as a mentor and guide to new senior administrators across the province of Ontario. Mitch’s clients include large school boards, private schools and private sector companies.

Currently the Chair of the national board of directors for Cystic Fibrosis Canada, Mitch devotes a great deal of time to charitable and not-for-profit causes and has extensive local, provincial and national board experience including serving in board leadership capacities.
